

# Is Your Restoration Technician Up To Date On Their Certifications?

*In all of Indian River County, only 12 Mold Remediators and only 13 Assessors are current and active.*

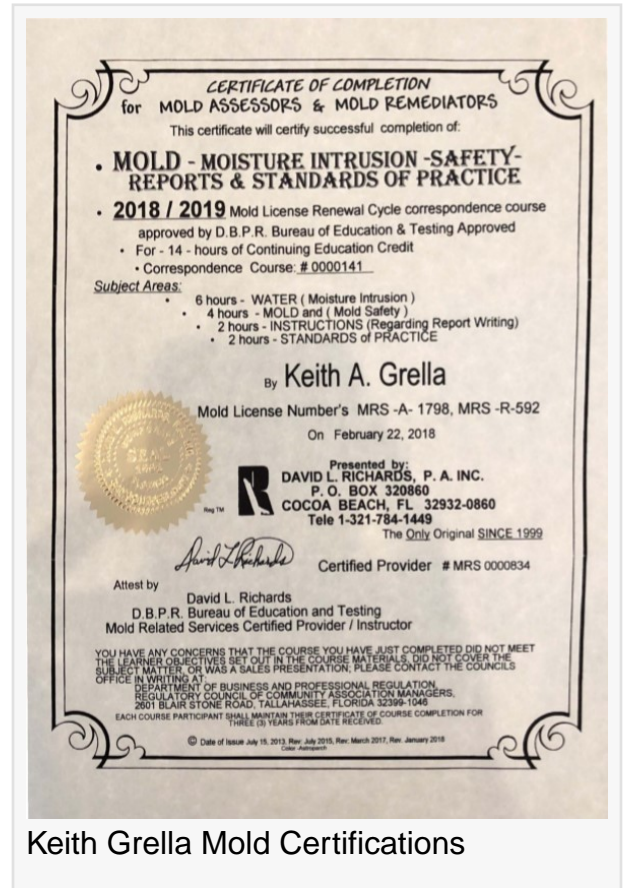

VERO BEACH, FLORIDA, UNITED STATES, May 22, 2018 /EINPresswire.com/ -- Did you know only 12 current and active Mold Remediators and 13 Mold Assessors have active licenses in Indian River County? When it comes to restoring a home or business after a disaster, choosing a Florida state certified Mold Remediator or Mold Assessor is crucial to the success of your restoration project. Choosing the right materials, equipment and methodology helps ensure that water damage, fire damage or mold damage restoration can be successful.

Keith Grella, owner of ServiceMaster By Glenn's, completed his Mold Remediator and Mold Assessor licenses in March with a perfect score of 100% well before the July 31, 2018 deadline. This ensures he is up-to-date with best practices and is following regulatory guidelines in the restoration of mold, water, fire or smoke damage. Combined with 25 years experience and reaching a recent career benchmark of 10,000 remediation jobs, Keith Grella states about these achievements, "Staying certified and current in this industry is a must. Here at ServiceMaster By Glenn's, we make sure all of our restoration technicians are certified and well-trained to provide the best approach and management of disaster restoration projects for our customers."

Since the state of Florida tightened the requirements on mold treatment and removal in 2010, the number of certified Mold Assessors and Mold Remediators in the county has only shrunk. Before a consumer engages a restoration company to perform water, mold, fire or smoke damage restoration, make sure to visit [www.myfloridalicense.com/dbpr](http://www.myfloridalicense.com/dbpr). Follow the following steps: 1) click on verify a license 2) select search by license type 3) choose license category of mold related services and mold category of mold remediator or mold assessor.
